Education

Master of Engineering in Cyber Security <i>University of Maryland</i> Coursework: Hacking of C programs and Unix Binaries, Security Tools for Information Security, Digital Forensics and Incident Response	Aug 2025 - May 2027 GPA: 4.0/4.0
Bachelor of Engineering in Computer <i>Savitribai Phule Pune University</i> Coursework: Network Application, Operating Systems	Aug 2019 - May 2023 CGPA: 8.59/10.0

Technical Skills

Languages:	Java, Python, HTML, CSS, Javascript, React JS, Groovy
Frameworks:	Flask, Django
Database:	MySQL, MongoDB
Cloud Tools:	AWS, Azure
Specializations:	Machine Learning & Data Science

Work Experience

Accelya Quality Assurance Engineer – I <i>Tech-stack</i>	July 2024 – Aug 2025 <i>Pune, India</i>
- Led end-to-end testing efforts for airline product, ensuring its reliability and adherence to industry standards. - Collaborated with the development and product teams to design comprehensive QA strategies, ensuring both functionality and security best practices were upheld throughout the software lifecycle. - Implemented and optimized automated test suites, reducing manual effort by up to 30% and accelerating regression cycles.	
Annasaheb Magar College Research Intern <i>Tech-stack</i>	Sept 2023 – June 2024 <i>Pune, India</i>
- Built a Smart Healthcare Monitoring System using ML models, achieving 93% accuracy with secure AES-256 encryption. - Optimized a college portal for 3,000+ users, reducing response time by 40% via query and cache improvements. - Developed a Network Traffic Analyzer using Python and Wireshark, detecting 50+ suspicious network activities.	
Sunrise Group Web Developer Intern <i>Tech-stack</i>	Feb 2022 – May 2022 <i>Jaipur, India (Remote)</i>
- Engineered an e-commerce site on WordPress, optimizing functionality for enhanced user experience. - Increased website traffic by 35% through effective SEO strategies, significantly boosting visibility and engagement. - Developed a dedicated logistics website, streamlining operations and improving efficiency.	

Projects

Tender Allocation Website Blockchain, Solidity, web3	Github
Implemented smart contracts to ensure fairness and transparency in the tendering process, achieving over 98% accuracy and reducing processing time by 16.7%.	
3D Portfolio Website react.js, vite	Github
Developed a visually appealing web app integrating ThreeJS and React Three Fiber, enhancing user interaction with email communication and user-friendly forms.	

Achievements

Winner in Smart India Hackathon 2022

[Certificate](#)

- Led a team of six to solve a problem statement from the Ministry of Rural Development, securing first place among the top 8 teams.

Participant at Zonal Level Competition Aavishkar 2022

[Certificate](#)

- Presented the blockchain-based tender allocation website project with team members at an inter-college idea and innovation competition, demonstrating technical and problem-solving skills.

Web Team member at ACM PCCOER

- Collaborated on various projects and events, contributing to the ACM chapter at PCCOER.
